Sub: Supply and Installation of Solar Power Plant at PDPM IIITDM Jabalpur, regarding.

Dear Sir,

PDPM IIITDM, Jabalpur is an Institute of national importance, working under Ministry of Human Resource Development, GOI. The Institute is spreaded over an area of 250 acre at Mahgawa village near Dumna Airport, Jabalpur (M.P.).

We want to install Solar Power Plant of about 2 MW capacity in our campus so as to utilize the available non-conventional and sustainable source of energy in our area. We have come to know that your firm has been engaged in this domain.

We are intended to install the Solar Power Plant in PPP mode under which suitable land at our campus shall be provided on lease basis to the Power Generation agency which shall make installation of Solar Plant on its own cost. The Institute shall purchase the power on pre decided tariffs.

You are therefore requested to arrange a visit of experts from you firm to our campus for making feasibility survey and to provide us necessary specifications suggestions on the subject matter.

An early response is awaited.

With regards,

(Smt. Swpnali D. Gadekar)
